Plaintiffs objection to excess attorney fees.
 In addition to the following from recent
 Letter from attorney Rubinstein

A) I am extremely ill and I cannot fight anymore
 This is my last plea to the court

B) I am very sick due to the fact I have been taken advantage of by
 People like mr Rubinstein .He was paid approximately \$17,000 for this case.

C) the work he did most of legal paperwork is done by paralegals for nothing.

D) he took advantage of a sick person . Never explained an ejay fee etc.

E)He ,as an attorney should be more of a humanitarian when dealing with sick people

F) yes he is more educated then me and took advantage. He never would have taken this case if he
 thought he couldn't win.

G) he kept dragging it out to prolong this so called back pay. My slavery which caused the holes in my
 intestines and bleeding

G)I am extremely anemic and have attached a document from my dr.

H) he was paid sufficient

I) I am begging the court to return my money to me I need to pay for better drs (as he stated I have a mental condition , yes emotional and physical from being beat up by these so called helpful people and need it for living expenses and helping my sons student loans 160,000

J) if the court needs a copy of the Foreclosure papers I can send them . There are piles of paper. I am so very tired.

K) please your honor I am begging for my hard earned money an to obtain justice when an injustice has been done. \$17,000 was paid to him . On the state level I just the found out the cap is 6,000. He was compensated.

L) I was and still am under duress and need help from the court . Please return this money to me for my life I worked so hard for.

N) Elaine Mcafferty ,his assistant upon being given the foreclosure from Fairfield county bank should have immediately put a dire need request in . Why did she not do it? This was dragging out for years. This is negligent.

My only request to ms. mcaffrey , who is employed by mr rube stein was to please ask the clerks they deal with every day ,to get me a date due to dire need. The clerk told me about the dire need request not Elaine. Personal connection? The clerk in the odr office? This should have been taken care of. This was the on only so called personal connection I asked for .

O) shouldn't she have known this. He was on vacation. Having dental work done , I couldn't reach him and when I did he was talking about other cases (Isn't there an attorneys privacy client law) and how people were living in cars? I am glad I know about this because it is wrong. What are they doing ? Total injustice.

1) I Catherine Sama was unaware of the filing of the motion of fees filed by attorney Rubinstein against social security. I never authorized or was notified of any motion until SS made me aware.

2) The fees were never properly explained to me.

3) I was unaware of an Eajay fee? It was explained to me by the commissioner of SS Equal access to justice . I would never have known this. Me Rubinstein was awarded \$7000 plus 350 plus \$1950 from my son and an additional \$7400 from me.this is almost \$17,000. This is more than reasonable and customary.

4) I did not understand any of the documents . I was given a huge pile to sign and have been to sick to

understand what I was signing. I was under duress with medications , pain , bleeding anemia I was desperate so I trusted my lawyer.

5) he kept prolonging the hearing date I was under dire need being in a Foreclosure and bankruptcy and begged him to get a date . When under extreme desperation, I called the clerk and got the date. He then threatened her job.

6) I told him one day I felt like I was going to die from all this the stress from a foreclosure a bankruptcy no medical, medicine no money no help. He told me don't die then you are no use to me. I was so hurt from the lack of empathy . I spent my entire life helping others and could not believe this.

7) I did not understand all the legal documents and nothing was explained to me. I could hardly get him on the phone.

8) I have been a total victim.

9) I believe in a fair pay for a lawyers work and \$17,000 is plenty. Whatever retro benefits I had to pay off so many debts and am still hurting. I am begging the court for relief to please return the \$32,000 to me. I am at the end of my working life and Need to survive. I worked very hard my entire life. I have the holes in my stomach and intestines to prove it.

10) in conclusion please understand I did not understand what I was signing being so sick and having no leverage.

11) I have no where to turn these illnesses have taken over my life. All this extra stress is causing more bleeding stomach aches exasperating my conditions. More panic attacks. I have been very fair . He has been paid plenty. I have been raked over the coals.

My son has over \$160 ,000 in student loans was interning for national security driving four hours each way from Saint Mary's a public honors college in md (he worked very hard to get into, the third best public honors college in the country)where he went to school in md . I had no money to help him with living expenses while he interned. On the weekends he worked at the school bookstore for food money. He also interned for the senate. I need to help him pay some of this back. I taught him to help our country and get a good education. I did all the right things. Please help me .

Thank you for your help and consideration.

I'm so very tired
