Dear Madam -

I apologize for writing in again, but I am concerned that the first email below may not have reached the intended recipient.

Please let me know how I can submit certain documents for "*in-camera review*" by the Honorable Judge Janet Bond Arterton. As these documents relate to medical records, I am unwilling to submit them as part of PACER filing for public consumption.

I hope to hear back from your end soon.

Thanks and best regards,  
Iftikar

I do not wish to file these documents publicly with PACER as they pertain to my health and I am concerned about privacy issues; furthermore, I worry about divulging information that may jeopardize my physical safety given past incidents when I have been attacked by people sent by Oak and their agents.

Can you please let me know how I can submit certain documents and files for "*in-camera review*" by the Honorable Judge?

I would be happy to email you the files if that were to work for the Honorable Judge.

I hope to hear back from you soon.

Sincerely,  
Iftikar
